- Has around 3,600 employees
- Fredrik Walde Ekerhovd is CEO
- Listed on Nasdaq Stockholm since 1997
- Head office in Stockholm

Vision

A sustainable and humane society.

Mission

Fixing the future together with our clients using strategic, creative, and tech skills.

Core values

- Choose courage
- Trust in transparency
- What's in it for we?

Values

Knowit's corporate culture is based on the idea of a sustainable society and is created in collaboration between responsible executives and employees and based on respect for the value and dignity of each person, as well as openness and honesty.

Organization

Knowit has an organizational structure built around the four Nordic countries Sweden, Norway, Finland, and Denmark, as well as the Products business area.

In addition to the Nordic countries, Knowit also has operations and offices in Poland, Germany, and Serbia.

With short decision-making paths and strong local knowledge within each market, the conditions are created for a Knowit that stands close to its customers.

Services

Systems development, digital customer experiences, cybersecurity, AI, cloud services, and management consulting are some of our areas of expertise.

The Products business area delivers tailored, IP-based solutions that combine in-house developed SaaS products with flexible consulting services.

Knowit's solutions can be found in every part of society. From smart helmets that increase safety at construction sites, the SOS Alarm app used in emergency situations in Sweden, to IoT-connected cows that help ensure sustainable milk production.

Versatility and strong customer relationships

Knowit works with customers across a wide range of industries. Our largest customer group is found within the public sector, which accounts for a significant share of our revenue. Other important sectors include retail, industry, and finance, where our solutions contribute to increased efficiency and new business opportunities.

One sector with strong growth is defense, where we currently have several long-term customer relationships. This broad customer base gives us a strong platform to stand on, while also challenging us to continuously develop our offerings to meet our customers' varying needs.

Key figures 2025

Net sales, SEK M	5,798
Operating profit before amortization of intangible assets (EBITA), SEK M	348.9
